PROFESSIONAL SUMMARY

Aspiring software developer with <2 years of experience in development of applications. Excels in every stage of learning software development, including design creation, coding, debugging, testing, and maintenance. Formidable in devising innovative and tailored solutions to assist businesses achieve their goals in a variety of industries. Advanced skills and knowledge of leading programming tools with a strong background in chemistry, algorithms, and data-processing logic.

SKILLS

- Development skills include OOP, Agile Development, Solutions Architecture, Project Management, and Technical Documentation.
- Programming languages include PHP, JavaScript and MySQL. -Exceptional ability to work in the following environments: Windows. Linux
- Strong decision maker, critical thinker, and creative designer with the ability to think around problems to unusual yet highly effective solutions.
- Excel in systems evaluation to identify system performance indicators and the best course of action to take to improve or correct performance based upon specific system goals.

EXPERIENCE

Senior Software Developer

June 2022 – present

- Develop, upgrade, and maintain advanced financial industry software.
- Coordinate the design and implementation of various applications, including collaboration with project managers, and client representative and development teams.
- Provide mentoring services to junior developers as needed.

Software Developer

April 2022

- Experimented with multiple iterations during design implementation.
 - Wrote extensible and maintainable code as part of a team.
- Excelled in rapidly prototyping new capabilities to confirm project feasibility.
- Designed web applications and maintained content for multiple .NET-based systems.

Junior Software Developer

February 2022

- Modified existing software to detect and correct errors, improve performance, and upgrade interfaces.
- Consulted with clients regularly regarding projects, proposals, and technical issues that arise during the development process.
- Prepared reports on specifications and activities for each project.
- Collaborated well with other team members to determine the best design specifications and details.

EDUCATION

School	Qualifications	Year Graduated
Abia State University, Uturu, Abia, Nigeria	Bachelor of Science in Biochemistry	2015
Command Day Secondary School, Ojo, Lagos.	Senior Secondary School Certificate Examination	2006
Kristobell Junior Academy, Iba-Town, Lagos.	First School Leaving Certificate	2000
Duke University, Durham, North Carolina (Coursera Online program)	Programming Foundation on HTML, CSS and JavaScript	2022
Zuri Academy	Backend (PHP)	On-going

HOBBIES

When I am not sitting in front of a computer monitor, I like to disconnect and unwind in the great outdoors.

I enjoyed researching, traveling, reading, learning, listening to music and meeting people.

My favorite activities include camping, hiking, and kayaking at many of the national parks located nearest my home. I volunteer my time once a week to teach middle school students how to code, and often volunteer with Brainiac STEM when I get the opportunity.
